

CAR-GO Explorer

DESIGNED
FOR WORK

MAINTENANCE-FREE
BATTERY

OFF ROAD
COMPATIBLE

VERSATILE. MULTIFUNCTIONAL. HIGH PERFORMANCE.

The Birdie CAR-GO Explorer is specially designed to navigate easily in tight spaces and small paths, even on undeveloped roads. Its raised ground clearance allows it to adapt to the characteristics of several areas and terrains. For jobs that require the transportation of tools, equipment, or materials within a relatively small area, a golf cart that has a larger load capacity and excellent carrying capacity can be much more efficient than using larger vehicles. A perfect choice either in an environment dominated by nature or in the area of ongoing construction.
