

JOYRIDE 23+

TOURIST USE

IN ANY WEATHER
CONDITIONS

100%
ELECTRIC

BIG GROUPS. QUIET OPERATION. CLOSED PASSENGER AREA.

Birdie Joyride 23+ is a tourist attraction designed to take visitors around a city or area to see the main sights and attractions in a comfortable and fun way. Its closed passenger compartment provides protection even in extreme weather conditions. These buses usually run on routes that are easily accessible and lead to the most important points of the city, but are often not accessible by larger vehicles. For those who don't want to take long walks or have difficulty moving, the Birdie Joyride can be an excellent way to explore the city. In addition, it also offers an economical, efficient and environmentally friendly solution for the transport of personnel at workplaces covering a larger area, such as logistics centers or national parks.

JOYRIDE 23+
